Volume 23, Number 1, February 1988

M. Manthey, G. Karnop and H. Rehbein
Quality changes of European catfish (*Silurus glanis*) from warm-water aquaculture during storage on ice 1

A. K. Lockley, W. J. P. White and G. M. Hall
A method of assessing protein adsorption onto ultrafiltration membranes 11

K. M. Sahay and B. S. Bisht
Development of a small abrasive cylindrical mill for milling pulses 17

J. Lavéty, O. A. Afolabi and R. M. Love
The connective tissues of fish. IX. Gaping in farmed species 23

M. Rodrigo and A. Martinez
Determination of a process time for a new product: canned low acid artichoke hearts 31

E. Joubert
Effect of batch extraction conditions on yield of soluble solids from rooibos tea 43

J. A. Maga and O. O. Fapojuwo
The effect of various hydrocolloids on some physical properties of extruded corn grits 49

P. D. Patel, A. M. Stripp and J. C. Fry
Whipping test for the determination of foaming capacity of protein: a collaborative study 57

Sylvia Mizrahi and S. Mizrahi
Performance of mechanically developed dough in pita bread production 65

R. Garcia, F. Leal and C. Rolz
Drying of bananas using microwave and air ovens 73

S. M. Smith, J. D. Geeson and Pia M. Genge
The effect of harvest date on the responses of Discovery apples to modified atmosphere retail packaging 81

P. R. Robles, E. D. Murray and O. Paredes-López
Physicochemical changes of maize starch during the lime-heat treatment for tortilla making 91

F. H. Motlagh and P. C. Quantick
Effect of permeable coatings on the storage life of fruits.
I. Pro-long treatment of limes (*Citrus aurantifolio* cv. Persian) 99

R. Dhalla and S. W. Hanson
Effect of permeable coatings on the storage life of fruits.
II. Pro-long treatment of mango (*Mangifera indica* L. cv. Julie) 107

Technical note

R. Chakrabarti
Use of dense media to separate meat from small crabs 113

Book reviews 117

Volume 23, Number 2, April 1988

Review

R. S. Singhal and P. R. Kulkarni
Amaranths—an underutilized resource 125

R. J. Aguerre
The temperature dependence of isosteric heat of sorption of some cereal grains 141

L. Giannuzzi, N. Rodriguez and N. E. Zaritzky
Influence of packaging film permeability and residual sulphur dioxide on the quality of pre-peeled potatoes 147

D. Lindner, D. Basker, S. Abuful and F. Abdulhadi
Prediction of visual surface quality of industrially peeled tomatoes, based on their internal appearance when fresh 153

D. J. McClements and M. J. W. Povey
Comparison of pulsed NMR and ultrasonic velocity techniques for determining solid fat contents 159

J. Murray
Absorption of benzoic and sorbic acids by herring and prawns in marinades 171

M. J. Morley and C. A. Miles
Influence of the degree of hydration on the thermal expansion of muscle tissue 177

Aurora Martinez and A. Gildberg
Autolytic degradation of belly tissue in anchovy (*Engraulis encrasicholus*) 185

Technical notes

D. R. Rao, S. R. Pulusani and C. B. Chawan
Preparation of a yogurt-like product from cowpeas and mung beans 195

Dora Kitic and J. Chirife
Criticisms of a method for predicting the water activity of simple and multicomponent mixtures of solutes and non-solutes 199

Elizabeth Joubert
Effect of agglomeration on the properties of spray-dried rooibos tea 203

Book reviews 209

Errata 221

Volume 23, Number 3, June 1988

Editorial 223

D. Ballester, X. Castro, P. Cerda, E. García and E. Yáñez
Bread quality and nutritional value of 'Marraqueta' and 'Hallulla' supplemented with full-fat sweet lupin flour (*Lupinus albus* cv. Multolupa) 225

Lavinia Camacho, Magaly Vásquez, Margarita Leiva and Electra Vargas
Effect of processing and methionine addition on the sensory quality and nutritive value of spray-dried lupin milk 233

G. B. Quaglia, F. Sinesio, D. Veccia-Scavalli, V. Avalle and G. Scalfati
Effect of water activity on oxidative deterioration of freeze-dried beef 241

D. Burfoot and K. P. Self
Predication of heating times for cubes of beef during water cooking 247

A. E. Scobbie and I. M. Mackie
The removal of fat, skin and viscera from sand eel flesh by incubation above ambient temperature 259

A. Ballantyne, R. Stark and J. D. Selman
Modified atmosphere packaging of shredded lettuce 267

K. K. Seth and Nirankar Nath
A simple blanch-dry process for lipoxygenase inactivation in soybean cotyledons 275

P. Rice, J. D. Selman and R. K. Abdul-Rezzak
Effect of temperature on thermal properties of 'Record' potatoes 281

M. R. Adams and C. J. Hall
Growth inhibition of food-borne pathogens by lactic and acetic acids and their mixtures 287

I. O. Akinyele and A. O. Onigbinde
Stability of protein digestibility and composition of cowpea (*Vigna unguiculata* L. Walp.) during sealed storage at different temperatures 293

I. O. Akinyele, M. H. Love and M. Ringe
Nutrient composition of extruded cowpea products 297

R. Martín, J. I. Azcona, J. Tormo, R. E. Hernández and B. Sanz
Detection of chicken meat in raw meat mixtures by a sandwich enzyme immunoassay 303

Book reviews 311

Volume 23, Number 4, August 1988

Review

S. S. Marwaha and J. F. Kennedy
Whey—pollution problem and potential 323

I. Panchev, N. Kirchev and C. Kratchanov
Improving pectin technology. II. Extraction using ultrasonic treatment 337

Patricia H. Moulding, D. E. Singleton, Kathryn M. McLellan and D. S. Robinson
Purification and heat stability of Cox's apple pulp peroxidase isoenzymes 343

Alison Ballantyne, R. Stark and J. D. Selman
Modified atmosphere packaging of broccoli florets 353

K. L. Brown, Joy E. Gaze, R. H. McClement and P. Withers
Construction of a computer-controlled thermoresistometer for the determination of the heat resistance of bacterial spores over the temperature range 100 to 150°C 361

Joy E. Gaze and K. L. Brown
The heat resistance of spores of *Clostridium botulinum* 213B over the temperature range 120 to 140°C 373

R. Poffé and W. Mertens
Rapid estimation of psychotrophic and proteolytic bacterial counts from total bacterial counts in cooled raw milk 379

M. Hendrickx, C. Lauwerens and P. Tobback
Moisture diffusivities for bran and endosperm during soaking of long-grain brown rice 385

S. O. Awonorin and J. Lamb
Heat transfer coefficient for nitrogen droplets film-boiling on a food surface 391

M. Perez Won, S. Iyama, K. Shinohara, H. Murakami and H. Omura
A circular dichroism study of the effect of some organic solvents on the actomyosin of sardine (*Sardinops melanosticta*) 403

Technical notes

A. P. Gandhi and M. C. Bourne
Effect of added soybean paste and instant soydhal on toughness and rate of staling of chapatis 411

C. Petriella, J. Chirife, Silvia L. Resnik and R. D. Lozano
Correlation between induction time and rate of browning in heated model solutions of glucose and lysine 415

O. C. Aworh and S. Nakai
Separation of sodom apple proteinases by gel filtration 419

Book reviews 425

Volume 23, Number 5, October 1988

T. Smolińska, W. Kopeć and T. Triziszka
Effect of skin addition on the technological properties of comminuted chicken 441

P. Thomas and M. R. Joshi
Reduction of chilling injury in ripe Alphonso mango fruit in cold storage by temperature conditioning 447

Martine Le Meste and R. B. Duckworth
Effect of water content on the mobility of solute molecules and of protein side chains in caseinate preparations 457

M. J. Morley and G. A. J. Fursey
The apparent specific heat and enthalpy of fatty tissue during cooling 467

A. A. G. Candlish, C. A. Haynes and W. H. Stimson
Detection and determination of aflatoxins using affinity chromatography 479

D. Burfoot and Wendy J. Griffin
Effect of dimensions on the heating times and weight losses of cylindrical beef joints 487

G. R. Akande, M. J. Knowles and K. D. A. Taylor
Improved utilization of flesh from mackerel as salted dried fish cakes 495

I. A. G. Weinert and P. J. van Wyk
Guava puree with reduced stone cell content: preparation and characteristics of concentrates and nectars 501

G. O. I. Ezeike
Hygroscopic characteristics of unshelled egusi (melon) seeds 511

Technical notes

Herborg Haaland, Elisabeth Arnesen and L. R. Njaa
Amino acid composition of whole herring over the spawning season and during anaerobic storage at 2°C 521

C. G. B. Cole and A. E. J. McGill
Effect of animal age and conditioning methods on the conversion of bovine hide into gelatine 525

Book reviews 521

Errata 539

Volume 23, Number 6, December 1988

B. G. Osborne and J. F. Tyson
Flow injection analysis—a new technique for food and beverage analysis 541

P. Chompreeda, A. V. A. Resurreccion, Y.-C. Hung and L. R. Beuchat
Modelling the effect of peanut and cowpea flour supplementation on quality of Chinese-type noodles 555

S. Sukhumsuvun and A. V. A. Resurreccion
Perceptions of peanuts and related products by Thai consumers in the U.S. 573

S. G. S. Hatfield and M. Knee
Effects of water loss on apples in storage 575

M. S. Bratakos, T. F. Zafiropoulos, P. A. Siskos and P. V. Ioannou
Selenium losses on cooking Greek foods 585

M. Rotbart, I. Neeman, A. Nussinovitch, I. J. Kopelman and U. Cogan
The extraction of carrageenan and its effect on the gel texture 591

A. K. Govaris and J. Scholefield
Comparison of a computer evaluation with a standard evaluation of retort pouch thermal processing 601

H. Roussel and J. C. Cheftel
Characteristics of surimi and kamaboko from sardines 607

J. S. Lea, N. J. F. Dodd and A. J. Swallow
A method of testing for irradiation of poultry 625

Technical notes

A. D. Adegoroye and D. E. Eniayeju
Influence of container material and shape on impact-induced damage of tomatoes in transit 633

E. C. Okoli, O. G. Nmorka and M. E. Unaegbu
Blanching and storage of some Nigerian vegetables 639

R. J. Hart, J. A. White and W. J. Reid
Occurrence of *o*-tyrosine in non-irradiated foods 643

E. S. Lazos and P. Kalathenos
Composition of tomato processing wastes 649

Book reviews 653
